BASEPOINT
making a difference

Basepoint Crawley celebrates 6th anniversary

To celebrate Basepoint Crawley's 6th birthday Basepoint hosted an Afternoon Tea. The event was well attended by licensees, some who have been tenants at the centre almost since it opened, and all enjoyed cream teas served by the centre staff.

Since the centre opened in 2003 it has served over 300 start-up and small businesses. Basepoint's unique concept and flexible rolling licences allows businesses to start in a small unit and progressively move up through the unit sizes within the centre as their business develops. The ability to quickly downsize with the needs of the business enables the companies at Basepoint to thrive risk free.
